Russia / Belarus / Ukraine

Updated: March 14, 2022

This statement is regarding the changing circumstances taking place in Russia, Belarus, and Ukraine. The US has issued Implementation of Sanctions Against Russia Under the Export Administration Regulations (EAR) which have made exports via air and other transportation methods to many countries cease. Deliveries and pickup have also been stopped as a result.

Our priority is to protect our supply chain and customers. We are in constant communication with our suppliers, customers, logistics service providers, and global port authorities to monitor the situation and take appropriate action as needed.

Due to these circumstances, all shipments to and from Russia, Ukraine, and Belarus have temporarily been suspended.

In regard to the supply of Neon gas used in Semiconductor manufacturing that are typically sourced from Ukraine, we are not impacted.

Please ask your MCC Sales Representative for information specific to your account. We will continue to provide updates as the situation evolves and more information becomes available.
