Micro Commercial Components Corp.

Halogen Free Declaration

As an environment conscious company, MCC strives to limit the use of hazardous substances in our products. Now we will switch our parts to halogen free to be compliance with IEC61249-2-21 standard.

To better manage our inventory and manufacturing process, we will not add suffix “-HF”for our halogen free products when we start such conversion.

Specific date code and “Halogen-Free”logo on the label will be used to distinguish whether the parts are halogen free or not, see below for details:

Halogen Free Label (Sample)

Affected packages:

Package	Halogen Free Start Date Code
0201	2035
DB-1	2035
